

BASIC LINE

Air Motors from 200 W to 1.2 kW

The great value air motor with robust cast iron housing for use in normal production environments.

Low maintenance:

Our patented vane exchange system allows replacement of vanes without disassembly of the motor. All you need is a screwdriver and tweezers, it can also be performed by non specialised personnel. This motor is much more maintenance friendly than any other of its kind.

The BASIC LINE air motor with its modular design has a particularly attractive price-performance ratio, as well as all the advantages of a modern compact air motor. It has a high performance density and small space requirements, it is robust and is also ATEX approved for use in potentially explosive environments.

All air motors can be operated oil-free, without special measures.

ATEX certified
large speed range

reversible

robust design
patented vane exchange system

Patented Vane Exchange Feature

The motor remains where it is installed.
This feature offers tremendous time savings.

BASIC LINE Air Motors

For which applications are the BASIC LINE air motors suitable?

An air motor with cast iron housing is the right choice for an application with dry surrounding air in normal stationary production. There is a wide spectrum of DEPRAG BASIC LINE vane motors available.

Applications for other applications:

For space saving installation e.g. in an industry robot, there are various grinding, milling and drill motors available which are distinguished by their light weight and compact design. These air motors can be found in our brochure D 6800 E.

When working without lubrication in an environment with aggressive cleaning agents and always when a non-corrosive design is required, we recommend our stainless steel motors. These are found in our brochure D 6400 E.

For special applications, such as e. g. continuous operation (24 hours, non-stop), underwater application and many more, our applications consultants are happy to help.

Silencer

Suitable for motor		Direction of rotation*)	Motor size 1	Motor size 3	Motor size 5	Motor size 7	Motor size 8
Without silencer	Noise level dB(A)		109.1	110.3	109.6	117.3	114.6
Silencer set with sinter cone	Part no.	U/R/L	447010C	447011C	447011C	447013C	447013C
	Noise level dB(A)		93.8	108.9	106.9	112.1	108.2
Silencer set with plastic filter	Part no.	R/L	447010A	447011A	447011A	447013A	447013A
	Part no.	U	447010D	447010D	447010D	447013D	447013D
	Noise level dB(A)		72.8	85.2	86.4	93.8	92.8
Silencer set with exhaust filter	Part no.	R/L	447010B	447011B	447011B	447013B	447013B
	Part no.	U	447010E	447010E	447010E	447013E	447013E
	Noise level dB(A)		71	77.2	76.1	94.1	88.3

*) U: motor is reversible

R/L: motor operates in one direction (right or left rotation)

**) consisting of plastic filter or exhaust filter and silencer for ventilation hole
